The lifespan of ASC LitterVac is an impressive 12 to 20 years.

The design has changed very little since the 1960's and to this day remains the only industrial steel manufactured LitterVac available on the world market.

The ASC LitterVac is ideal for buyers who want an ultra-reliable and low maintenance sweeper that can be used without restriction guaranteeing a perfect cleaning result every time.

ASC LitterVac Power Vacuums

ASC LitterVac Power Vacuums are ideal and versatile for use in factories, warehouses, stables, indoor and outdoor sports facilities, machine shops, amusement parks, regional airports and many more solutions that need litter & debris efficiently cleaned up.

Our ASC LitterVac's clean up to 40,000 square feet per hour picking up various litter and debris, such as: machine shop shavings, flat stock, cans, bottles, broken glass, sand, pieces of wire, foam packing, plastic pellets and too many more to name.

Our Power Vacs are powered by **Gasoline, Propane, Electric or Battery.**

If you are in a property management company, janitorial service, maintenance group, government agency or in your own business, the decision as to the proper cleaning machine is not unusual. Your search till now must have led you to the ASC Power Vac but which model and accessories? The walk behind sweeper ASC Littervac is ideal as a litter and debris control device but is not recommended for fine dust and powdery dirt. For the latter refer to our model ASC Eureka M1.

The walk behind sweeper ASC Littervac vacuum is a versatile machine enabling you to attack many different jobs in various environments.

The walk behind sweeper ASC Littervac is used outdoors for cleaning streets & sidewalks, parking lots, loading docks, storage yards, playgrounds and airport ramp areas to name but a few.

The walk behind sweeper ASC Littervac is still hand built in the USA (New York) to this day and the design elements have not changed since 1950. The walk behind sweeper ASC Littervac features a steel suction impellor and frame ensuring extremely long life and low maintenance costs. Most competitive look alike littervac machines made today are plastic based and lack the industrial strength or suction ability made famous by the USA hand built ASC Littervac. With thousands of walk behind sweepers ASC Littervacs sold worldwide the proof of reliability is in the genetics. Why change a machine when you know how well it works in every conceivable application?

Make an investment in quality today!
