

ASC COMMERCIAL & INDUSTRIAL FLOOR CLEANING SWEEPING RANGE OF MACHINES

ASC is Australia's leading industrial and commercial floor cleaning equipment company.

PROVIDING CLIENT SOLUTIONS
NATIONWIDE FOR OVER
35 YEARS

asc
DESIGNED TO CLEAN.
BUILT TO LAST

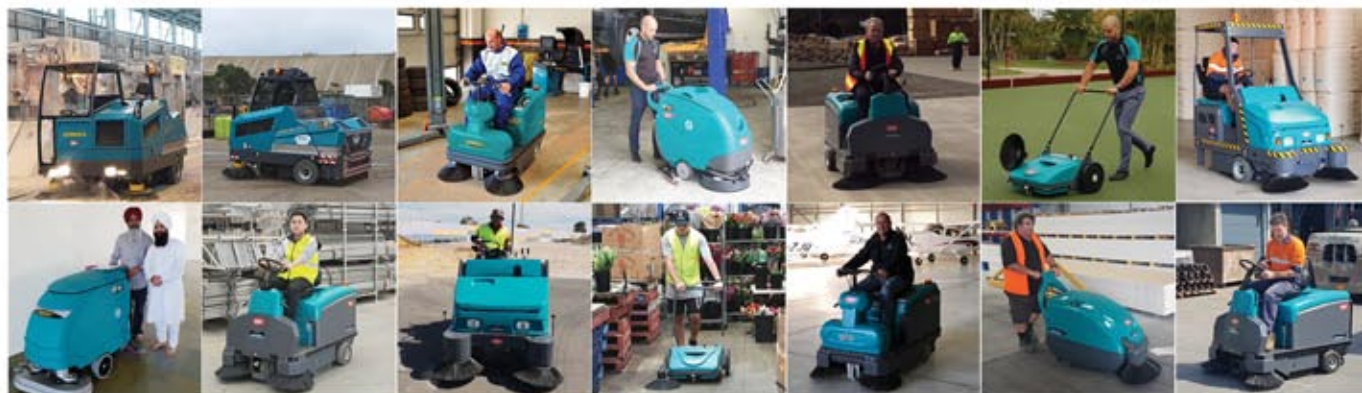

ASC HEAVY DUTY MACHINES

High Quality, low maintenance machines.
Easy to use & service – Globally recognised Brands.

Our extensive range includes large heavy duty industrial sweepers and scrubbers, street sweepers and scrubber driers, floor cleaning machines and a wide range of small push behind manual sweepers, motorised electric sweepers and scrubbers. We also offer alternative fuel choices such as LPG, diesel power as well as traction battery.

ASC not only leads the way in selling new sweepers and scrubbers but provides nationwide 24 hour support, advice and service for your convenience. ASC imports and sells leading international sweeping and scrubbing equipment. By offering the widest range of quality built leading cleaning brands to suit all industries, we are able to bring to the Australian commercial and industrial markets the world's best sweeper and scrubber machine technologies available on the global market today. We are not restricted to one brand or manufacturer; we sell several of the world's best floor cleaning machines, ensuring we can always offer the right equipment for every situation.

ASC G5

The ASC G5 is a versatile and efficient mid-size ride-on sweeper designed for various indoor and outdoor sweeping applications.

- With a cleaning capacity of up to 10,875 m² per hour (2 acres per hour), this machine is perfect for large areas such as warehouses, refrigerated facilities, carparks, and hospitals. The machine runs AGM zero maintenance batteries which eliminates the age old problem of battery failures.

ASC MACRO M60

The ASC M60 features a 6 cubic metre container and 6 tonne capacity making it a sweeper vehicle also suitable for the collection of very heavy materials, various litter and debris.

- This popular Italian made ride on sweeper is well known for its comfort, ease of use, safety and great manoeuvrability. Its heavy built structure and filtered mechanical suction sweeping system make it suitable for all cleaning conditions: from tree-lined avenues to cement factories; from ports to deserts and mines.

ASC MACRO M10

The ASC M10 is a road sweeper built for the next-generation, but available now and conceived to efficiently clean with its ease of use and great manoeuvrability.

- Its solid structure and exclusive geometry are conceived to work in industrial sectors and the city centre, from pedestrian zones to logistics warehousing and parking spaces.

ASC SWEEPER AND SCRUBBER RENTAL

TAILORING THE BEST FINANCE LEASING PLAN
OR A FULLY MAINTAINED RENTAL PLAN

ASC STRAIGHT RENTAL

A straight rental or more commonly known as a "Hire" is where you the customer agree to hire a ASC machine for a period of 1 to 5 years on a fully maintained basis*. Once the term expires you may elect to keep renting the machine or exchange it for a brand new one with a new term entered into.

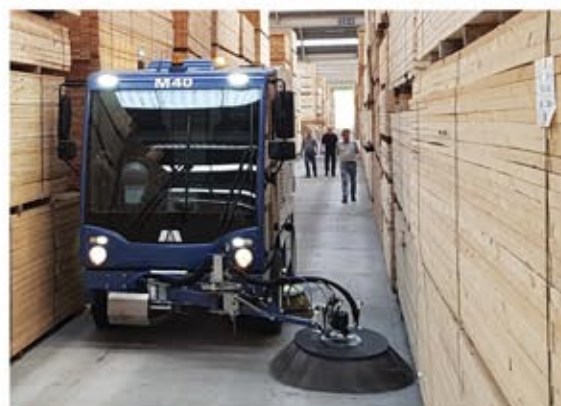

COMMERCIAL HIRE PURCHASE

With this type of finance, you hire and use the asset until the last payment. When you make the final instalment, title of the asset transfers to you. You can tailor payment options, including the loan period, a deposit and a larger final balloon payment. To help manage your cash flow, structured payments can be established according to your cash flow.

FINANCE LEASE

With a Finance Lease, the financier owns the asset however you bear the risk of disposal (of the asset) at the end of lease. This type of lease can benefit businesses that need the latest vehicles or equipment without tying up a large amount of capital. You can choose lease payments in advance or arrears and terms up to five years. A residual value is required in line with the asset's use and the Australian Taxation Office's guidelines.

OPERATING LEASES

Operating Leases can often be used to fund a number of different assets. Payments towards this type of finance can sometimes be considered operating costs and will not appear as a liability on your balance sheet.

With this type of finance, the financier owns the asset and the client returns it at the end of the term, usually from 12 months to 5 years. When leasing an asset, the fixed monthly payments typically cover, tyres and scheduled servicing and maintenance. For a small business, an Operating Lease can help free up time and resources.

ASC SWEEPER & SCRUBBER REPAIR SERVICE

ASC WARRANTY, FIELD SERVICE & REPAIR

ASC is a leading national supplier of industrial and commercial scrubbers and sweepers in Australia.

ASC is nationally supported for warranty maintenance, repair and service by our service division which has full mobile service and workshop facilities and guarantees all repair work. All our new and used sweepers and scrubbers are covered by industry leading warranties and additionally are backed by one of the largest spare parts divisions in Australia for all of our cleaning machines.

Wherever you are in Australia, we can extend our professional service offering for our entire range of commercial floor cleaning machines through a network of trusted partners.

To find out more about our service options, or to discuss a tailored service solution for your business, call us today on 1800 650 989 or visit www.sweeper.com.au

ASC SWEEPER AND SCRUBBER PARTS

CENTRALISED SWEEPER AND SCRUBBER PARTS
WAREHOUSE BASED IN SYDNEY NSW

ASC has a major centralised sweeper and scrubber parts warehouse based in Sydney NSW, as well as a large quantity of quick moving parts in most of our nationwide warehouses which are scattered across Victoria, Queensland, Western Australia and South Australia.

Our sweeper and scrubber parts range varies from soft parts (quick moving items like brushes, squeegees, filters, batteries, chargers etc) to hard items like hydraulic motors, actuators, gimbals and the like.

ASC has a huge multimillion dollar parts backup system as well as specialised parts personnel in the company to sort, pack and process parts orders. All our parts personnel have years of experience dealing in sweeper/scrubber parts and are able to provide technical help rarely found in our market sector. In the event that you have major technical issues we can also refer you to our service staff who offer advice on trouble shooting at no charge. We offer spare sweeper and scrubber parts for all the brands we sell.

All ASC parts are OEM (original equipment manufactured) so you can be assured that ASC parts are well fitting and have great longevity.

ASC is a high integrity company with experienced and qualified staff and today serves nearly 80% of major companies around Australia who seek support, value, reliability and integrity.

ASC is a leading national supplier of industrial sweepers and scrubbers for Australian Industries.

ASC is a leading national supplier of industrial and commercial sweepers and scrubbers in Australia. With our branch offices located throughout the country, we cater to all industry markets both (large and small), looking for new scrubbing and sweeping machines, rentals or leasing, regular servicing and spare parts. We also offer trade-ins and a large ever changing range of second hand sweepers and scrubbers. ASC is a 'total solutions' company backed nationally and we are considered by our industry peers to be one of the leading forces in the industry.

Our client listings are the envy of our peers and are diverse, reflecting the many industries both large and small that our commercial scrubbers and sweepers are suited to. From sole traders, small to medium enterprises, to large companies, plus local, state and federal governments, organisations of all sizes come to us with their industrial cleaning requirements.

Just some of our loyal Australian and New Zealand customers include:

- BHP Billiton, Rio Tinto, Xstrata Copper, Comalco Aluminium, Glencore and ALCOA in the mining sectors.
- HUTCHINSON Builders, Lendlease, CPB Contractors, Built & Kane Constructions in the construction field.
- AURIZON, QUBE Holdings, Mainfreight, TOLL, Qantas, Star Track Express, Direct Freight Express in the warehousing and transport sectors.
- Allied Mills & Goodman Fielder in the food industry.
- Toyota Material Handling, Hyundai Rentcorp & MARS Forklifts in the handling industry.
- Boral and CSR in the raw materials industry.
- As well as thousands of small to medium sized businesses and large corporations located all over Australia and New Zealand.
